Dear Sir;

I'm enclosing a drawing of an
object I sighted on Gloucester 10, 1965, at
6:10 P.M., which I believe is a Flying
Saucer or UFO. I first saw it at
11000 feet over and under

The hull was circular, it gave off a orange metallic glow.

The glow left, to expose a off gray color, then it spun counter clockwise, took off to the South like at a unbelievable, then as if turning on a dime, it went North. This continued until it vanished, about 20 minutes later.

Can you tell me why, like United States, with its tight security, can't control vehicles from on to their soil? Why the public isn't told about UFO's? These things are controlled and guided by intelligent life. That's no doubt. I had

six witnesses to this event. Please write, and tell me whether any action will or can be taken. If you want, you may call. My phone number is [REDACTED]

Dear Sir;

In enclosing a drawing of a
object hovering about 800 feet over
my house.

The date and time was November
10, 1965, 6:10 P.M.

It was circular, gave off a strong
metallic glow. It was visible for
minute, from a still position, it
took off southwardly at a amaz-
ing speed, turned squarely to the
North, stopped and vanished.

Two minutes later, it reappears in
the East, its detail was visible through
vision alone, but I checked again
through binoculars. What I saw was
unbelievable. It was like a science
fiction scene. Five other people were
witnessed to this.

For the purposes of National and
State Security, I felt it my duty
to report this. Something like

strange, you have to tell someone! & if they put on a show for 20 minutes? From the pattern of flight, places we didn't see my mind, this UFO was guided by some intelligence force or being.

If you need more information, my phone number is [REDACTED] in home after 6:00 P.M.

Cordially yours

Dear Sir;

Am enclosing a drawing of an object I noted Wednesday 10, 1965, at approximately 6:10 P.M. Its process was known for 30 minutes. It would take off south at amazing speed, turn as a dice, go back fast. It repeated this until it stopped in a instant, then as if by magic, vanished. I know I saw a Flying Saucer. What I don't want to know, is why the Government keep this under cover? Can you tell me something about what I know? From what Government agency could I get materials on this subject? Hoping to hear from you soon.
